

# Sharing the Harvest

## How does Sharing the Harvest work?

*Generous growers commit to sharing their apples.*

*Generous individuals from Covenant churches share their resources, pre-purchasing apples.*

*Generous volunteers share their time by packaging and transporting purchased apples.*

*Generous funds are shared with the Center for Experimentation and Training in Agriculture (CEFA), a research and training farm in the Central African Republic supported by Covenant World Relief*

*CEFA generously shares knowledge and techniques with farmers and others to take a bite out of hunger and malnutrition in their community.*
